3S2i group

SOFTWARE · AI · IOT · CONNECTIVITY

# Technologies evolve. Systems remain.

3s2i designs, builds, connects and operates the digital systems critical organisations depend on across Maghreb and Europe.

Company & product brochure · 2026

DESIGN · BUILD · CONNECT · OPERATE

# One chain of responsibility

Software, data, infrastructure and communications are designed as one coherent system. Sensitive workloads can remain local or on-premise. Critical decisions stay under human and business control.

**DESIGN**

Architecture shaped around operations.

**BUILD**

Sector platforms, APIs, AI and data.

**CONNECT**

UCS, VoIP, wireless, private LTE/5G and IoT.

**OPERATE**

Run, maintain, secure and evolve.

21 PRODUCT SYSTEMS

# Reusable sector depth, adapted to each organisation’s workflows, security model and deployment constraints.

### NEXORIA

Tender intelligence · local AI

### INSIGHTIA

On-prem tender, Go/No-Go & CPQ

### VIALIS

Pharmaceutical tender intelligence

### REGULYNX

Pharmaceutical regulatory intelligence

### CHAHEEN

Sovereign communications

### VIGILIA

Incidents, audits, risks & actions

### CYBRALY

Cyber resilience & GRC

21 PRODUCT SYSTEMS

# Reusable sector depth, adapted to each organisation’s workflows, security model and deployment constraints.

### WISSAL
Cash remittance networks

### TRUSTCOVER
Insurance lifecycle

### Tamin
Conversational insurance

### CORIDEX
Digital oilfield HQ

### HSE
Safety, environment & compliance

### SIYANA
CMMS & IoT maintenance

### ASWAKY
Multi-vendor marketplace

21 PRODUCT SYSTEMS

# Reusable sector depth, adapted to each organisation’s workflows, security model and deployment constraints.

**AURELIS**
Real-estate marketplace & CRM

**SYNEX**
Co-ownership operations

**CHIFA**
Medical tourism journeys

**TIBAYA**
Telemedicine

**DIRAYA**
Distance learning

**DHIAFA**
Hospitality operations

**AirWhiz**
Passenger & crew operations

CONNECT

# Connectivity that holds in production

Business communications and private networks delivered as one operational project.

5

SOFTWARE · AI · IoT · CONNECTIVITY

- UCS / PBX as a service
- Business VoIP endpoints
- Point-to-point private wireless
- Private LTE / 5G and CPE
- Integration, rollout and operational support

3S2i group

1991 → 2026

# Built on delivery experience since 1991

Engineering roots in Tunis, delivery presence across Paris, Brussels and Casablanca, and long-running programmes on Maghreb–Europe digital corridors.

**Tunis**
Engineering

**Paris · Bruxelles · Casablanca**
Maghreb–Europe delivery corridor

**Selected environments**
Energy · banking · telecom · public sector · industrial EDI · research · e-government

**Let’s build the system behind your operations.**
